### **Obama Offered Extraterrestrial Briefing**

Denver, CO – Sen. Barack Obama has been offered a briefing by Denver resident Jeff Peckman on Extraterrestrial visitors to Earth. The briefing information provided to Presidents Reagan and Clinton is now available at [www.extracampaign.org](http://www.extracampaign.org), the web site for Peckman's ballot initiative to create an Extraterrestrial Affairs Commission in Denver.

President Reagan's UFO/ET briefing at Camp David March 6-8, 1981 is described in a twenty-one page alleged transcript that was declassified from "Top Secret" last October 2007. The document suggests that CIA Director William Casey and several other unnamed advisors revealed facts about UFOs and ETs that clearly astonished Reagan. Prior to becoming president, Reagan had reported seeing at least two UFO's of extraterrestrial origin.

In a televised primary debate last October, Sen. Obama was asked if he agreed that "there is life beyond Earth". Obama replied, "...I don't know and I don't presume to know". Peckman said, "Obama needs to know because in a recent AOL News poll, out of more than 135,000 online voters, 93% believed life exists elsewhere in the universe and 81% believed Extraterrestrial beings have visited Earth. Scientific polls on the same questions have shown similar results, and also that the vast majority of Americans believe the government is not telling the truth about the UFO/ET issue".

Peckman expressed his belief that "Sen. Obama can get a better briefing from private citizens than he can get if elected president." The day after his inauguration, President Jimmy Carter requested information on the UFO/ET issue but was denied the material by CIA Director George Bush Sr. Key Republicans like Bush Sr. are reported to have a big role in keeping information about UFOs from the public.

President Clinton was also not allowed a briefing from high level government officials. Instead he had to rely in large part on credible witness testimony from former high-ranking military, intelligence agency, and government contractor personnel organized by Dr. Steven Greer of the Disclosure Project. To make more such testimony available, Peckman is asking the Democratic Party to include a plank in the their platform with the objectives of the Disclosure Project:

- To hold open, secrecy-free hearings on the UFO/Extraterrestrial presence on and around Earth.
- To hold open hearings on advanced energy and propulsion systems that, when publicly released, will provide solutions to global environmental challenges.
- To enact legislation which will ban all space-based weapons.
- To enact comprehensive legislation to research, develop and explore space peacefully and cooperatively with all cultures on Earth and in space.

If Sen. Obama's campaign or the Democratic Party does not respond, Peckman is unconcerned and said "My offer is just a courtesy to Sen. Obama and a challenge to him and other candidates to be as well informed as the public will be on this issue through the Extra Campaign. Obama wants to offer NASA more money even though for decades NASA has routinely removed images of Extraterrestrial beings and their vehicles from NASA videos and photos, while asking for billions of dollars a year to look for signs of life in outer space. This is another great opportunity for Obama to support truth, accountability and real change in the 60-year campaign of denial and disinformation regarding UFO's and Extraterrestrial visitors."
